Assembly. He endorses recommendations previously made by the State treasurer and the Corporation Commission, as, to taxation and its readjustment. Recommends that it be made a misdemeanor to use a railroad track as a highway except to so directly across it.

Regarding the famous South Dakota bonds, the Governor expresses the belief that the bonds may be settled for much less than the \$27,400 and the question of some adjustment of the remaining bonds of that class outstanding is commended for serious consideration. The Governor reviews the needs of each of the State educational institutions and recommends that provision be made for the payment of the traveling expenses of the State superintendent of public instruction since the railroads have declined to longer issue passes for divorce since the Code of 1833 be repealed and no divorce allowed except for Scriptural causes. That \$50.000 of the earnings of the penitentiary be appropriated for the establishment of a reformatory for young criminals. That no child that is over twelve years of age and under fourteen and cannot read and write, shall be allowed to work. It is recommended that the salaries of the judges be increased to \$4,500. That the Watts law be perfected and all exceptions from the operation of the law repealed. In conclusion the expresses thanks for co-operation to all the State officers and others.

A paragraph added to the message recommends the increase of the Governor's salary to \$5,000, also an increase of salaries of the Supreme and Superior Courtinges.
